Subject: Shared Spokane action with ID and WA

Hi Dan,

You'll see that I just sent the Spokane decision docs and desk statement to Ecology and IDEQ. Sorry it took so long, I was sure I had sent it earlier! I went ahead and decided the desk statement may be helpful for them to see.

Kathleen - FYI. You'll see an email from Lisa suggesting that we share this document with all R10 state staff and other regional WQS coordinators.

PS: I talked to Marianne and Cindy late yesterday. Marianne wanted to hold off on sending the desk statement to the Congressionals until Monday but its possible she may decide that we shouldn't send it to them and just wait to respond.

Have a nice weekend!
